

## **MEDICAID REDETERMINATION INFORMATION**

**<https://www.myflfamilies.com/Medicaid>**

**This is a public service announcement to provide information to individuals and/or families currently enrolled in the Medicaid Program. Click on the link provided to learn about the Medicaid Redetermination process that is beginning April 1, 2023. Within the web page is the link to “MYACCESS login” where you can update your contact information, obtain information about your Medicaid Redetermination, and Submit documentation for your Medicaid Redetermination. Updating your contact information is an important step in ensuring DCF or SSI will be able to make contact with you when Medicaid Redetermination for you and/or your family will be due to begin.**

**We ask that you please do not contact the Lafayette County School District or the schools for information on Medicaid Redetermination or Medicaid eligibility, as LCSD does not have any authority over the Medicaid Program. LCSD is just providing this information to make current Medicaid recipients aware of Medicaid Redetermination that will begin April 1, 2023, and to share information to help current Medicaid recipients to access the DCF portal for Medicaid Redetermination information and Medicaid Account access (MYACCESS).**
